

North Star Science and Technology, LLC
is a premier supplier of satellite transmitters for tracking birds and terrestrial animals.

- *We make Argos Platform Transmitter Terminals (PTTs) as small as 9.5 grams and GPS PTTs as small as 22 grams.*

We offer a full line of battery powered and solar powered PTTs in a wide range of sizes, exclusively for birds. We will start offering harness drop-offs in 2011.

- *Our Globalstar GPS tracking collars provide data from the field to the internet in real time. Collars are available in sizes ranging from 400 grams on up (C, 2C, D, and 2D cell battery configurations), with battery lives measured in years.*

Our Globalstar tracking system includes a 'non moving' alarm and a geo-fence, along with a mapping application that allows you to plot points in Google Earth™.

Try a demonstration collar for free; just ask us.

New for 2011

North Star is offering field downloadable GPS/VHF logging collars and Solar Powered GPS/VHF backpack loggers for birds. Ask us for a free demo collar or bird logger. Cell phone collars are coming soon.
