BOTSTIBER INSTITUTE FOR WILDLIFE FERTILITY CONTROL

www.wildlifefertilitycontrol.org

The Botstiber Institute for Wildlife Fertility Control seeks to advance the use of humane, sustainable, non-lethal fertility control methods to manage wildlife populations worldwide. The Institute serves as a resource center for wildlife fertility control by:

- stimulating vital discussion, collaboration, and networking through conference and meetings;
- educating wildlife managers, policy makers and the public
 - supporting wildlife fertility control projects.

For information on the Institute's 2018 grant program:

MASTER OF SCIENCE IN BIOLOGY ONLINE

The online M.S. in Biology is an accredited, fully online graduate program you can complete while continuing to work in the field. Learn from foundational courses and 40+ elective options in specialized topics, including:

- Current Issues in Biology
- Biological Statistics
- Biological Application of GIS
- Scientific Illustration
- Fisheries Ecology
- Aquatic Trophic Ecology
- Conservation Biology
- Crane Ecology

APPLY BY OCTOBER 15

to start in the upcoming spring semester.

Managing Cougars in North America

Managing Cougars in North America

Jonathan A. Jenks (ed.). Published by:
Association of Fish and Wildlife
Agencies and Berryman Institute
Press, Utah State University, Logan,
Utah, USA (200 pages, illustrated)

A comprehensive resource for wildlife managers, offering up-to-date research and management perspectives on cougars (*Puma concolor*) in North America.

- **INTENDED** for field biologists, agency leaders, regardless of jurisdiction, and general readers who are concerned with cougar ecology and management. This 200-page, illustrated book offers information about cougar habits and viable options for active management of extant cougar populations.
- **WRITTEN BY LEADING RESEARCHERS.**
- **CHAPTERS INCLUDE:** cougar ecology and natural history; cougar-prey relationships; assessing and monitoring cougar populations; conservation genetics; population management; strategies to manage cougar-human interactions; human dimensions of cougar management; and cougar research and management needs.

MULE DEER CONSERVATION:

Issues and Management Strategies

James C. deVos et al. (eds.). Published by:
Association of Fish and Wildlife Agencies
and Berryman Institute Press, Utah State
University, Logan, Utah, USA (239 pages,
illustrated)

Also Available...

Mule Deer Conservation: Issues and Management Strategies explores impacts and changes to mule deer habitat; population dynamics; mule deer nutrition, biology and ecology; elk and deer competition; effects of hunting; role of diseases in regulating mule deer populations; deer-predator relationships; and more.
